Continuation of 2. NOTE: Examiner maintains position that "a ground line" is claimed in the preamble. Further, Examiner contends that the other elements alleged to make up said "ground line" are disclosed in Eda etal.(US 5,387,888), primarily,an internal layer including a stripline and first and second ground layers as set forth in the Final Rejection. Examiner contends that it is not necessary for Applicant's claimed internal layer, line and first and second ground layers to be labeled as being part of a "ground line". The structural limitations stand alone, wherein the alledged "ground line" is apparently the intended use of the structure.
